## COMPANY OVERVIEW

Brio Solutions LLC is a specialized program and project management consulting firm providing Project Management Information Systems (PMIS), project controls, and program management services for transit infrastructure and capital improvement programs. Brio supports transit agencies and public-sector owners in delivering complex rail, bus, and multimodal programs with cost control, schedule reliability, and operational coordination. Our experience includes supporting rail, bus, station, maintenance facilities, and system-wide infrastructure projects. We help transit clients improve delivery performance by implementing integrated cost, schedule, and reporting systems that provide real-time visibility into project and program performance, while ensuring alignment with funding, operational, and stakeholder requirements.

## DIFFERENTIATORS

- Extensive experience supporting public agency capital programs
- Strong integration of cost, schedule, and risk
- Experience working in operational and high-visibility environments (transit systems)
- Expertise in Primavera P6, Power BI, EcoSys, Unifier, and enterprise PMIS tools
- Ability to standardize processes across large, multi-project transit programs
- Focus on accurate forecasting, schedule reliability, and executive-level reporting transparency
- AI-powered analytics and intelligent automation

## CORE COMPETENCIES

### Program & Project Management

- Capital program oversight
- Multi-project coordination
- Stakeholder collaboration

### Transit Program Support

- Rail and bus infrastructure projects
- Stations and maintenance facilities
- Capital improvement program support

### Project Controls

- Cost estimating and forecasting
- Planning and schedule development (CPM)
- EVM, risk and change management

### PMIS and Reporting Systems

- PMIS implementation and configuration
- KPI tracking and Dashboard development
- Automated reporting solutions

### Document & Contract Management

- Document control systems
- RFI, submittal, and change order tracking
- Version control and audit tracking

### Data Integration & Migration

- Legacy system migration
- API integrations
- Data validation and governance

### AI Solutions

- AI agents & workflow automation
- RAG & intelligent search
- Data pipelines & real-time dashboards
